A B O U T T H E D E S I G N E R :

Hailing from Randers, Denmark, Esben Bala Skouboe is a visionary designer renowned for pushing boundaries and charting new paths.

With a Civil Engineering degree in Architecture & Design and a 2015 Ph.D. in Responsive Public Lighting from Aalborg University, Skouboe has delved into a fascinating spectrum of research areas such as augmented reality, sensor technology, architectural lighting, parametric design, and the development of non-standard architectural forms.
